Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

INTERNATIONAL TRADE ADMINISTRATION ACT, 2002**(ACT NO. 71 OF 2002)****INVITATION FOR PUBLIC COMMENT ON PROPOSED AMENDMENTS
TO THE INTERNATIONAL TRADE ADMINISTRATION ACT, 2002**

I, Mpho Parks Tau, MP, Minister of Trade, Industry and Competition, hereby publish for public comment proposed amendments to the International Trade Administration Act, 2002 (Act No. 71 of 2002).

The proposed amendments seek to refine, update and strengthen the legislative framework governing the investigative, administrative and enforcement functions of the International Trade Administration Commission of South Africa (the Commission). The amendments take into account the Commission's operational experience, developments in international trade practice, and the need to enhance the effective administration of the Act. The proposed amendments include, amongst others, targeted changes grouped around the following key themes:

1. International trade-related measures

The proposed amendments introduce new provisions enabling the Commission, upon direction of the Minister, to investigate imports that may adversely affect the national security interests of the Republic. Additional provisions empower the Commission, upon Ministerial direction, to investigate discriminatory or unreasonable foreign trade practices that adversely affect South Africa's trade or economic interests.

2. Improvements to the investigative framework

Several amendments enhance the Commission's investigative and decision-making processes. These include provisions allowing for the consolidation of related applications or matters; the express consideration of public-interest factors in investigations; a clearer statutory framework governing reciprocal commitments by applicants; and authority for the Minister to suspend the imposition of duties where appropriate.

3. Enhanced enforcement and compliance mechanisms

The proposed amendments strengthen the Commission's enforcement powers by clarifying authority relating to entry, search and inspection, including procedures for handling confidential information. New provisions provide for the disposal of seized

goods where criminal proceedings are not instituted. An administrative penalty regime is introduced for specified contraventions, and criminal offences relating to illegal trade, falsified documentation and interference with investigations are expanded and clarified.

4. Administrative and technical refinements

Finally, the proposed amendments modernise and clarify various administrative provisions of the Act. These include refinements to the Commission's powers relating to permits, certificates, rebates and drawbacks; enhanced verification powers; and clarification of the circumstances under which permits and certificates may be amended, suspended or cancelled. These changes address operational challenges and improve the clarity and effective administration of the Act.

Interested persons are invited to submit written comments on the proposed amendments which must be submitted within four (4) weeks of the date of publication of this notice in the Government Gazette.

Written comments must be submitted by e-mail, clearly marked "Comments on Proposed Amendments to the International Trade Administration Act, 2002" in the subject line, and addressed to:

32. Consideration of alleged dumping and subsidised exports

- (1) Despite section 1, in this section–
- (a) “export” means to bring or send goods, or to cause them to be brought or sent, into the Common Customs Area from a country or territory outside the Common Customs Area; and

- (b) “exporter” means any person who brings or sends goods, or causes them to be brought or sent, into the Common Customs Area from a country or territory outside the Common Customs Area.
- (2) For the purpose of considering an application alleging the dumping or subsidised export of goods into the Common Customs Area-
 - (a) “export price”, subject to subsections (3) and (5), means the price actually paid or payable for goods sold for export, net of all taxes, discounts and rebates actually granted and directly related to that sale;
 - (b) “normal value”, in respect of any goods, means-
 - (i) the comparable price paid or payable in the ordinary course of trade for like goods intended for consumption in the exporting country or country of origin; or
 - (ii) in the absence of information on a price contemplated in subparagraph (i), either-
 - (aa) the constructed cost of production of the goods in the country of origin when destined for domestic consumption, plus a reasonable addition for selling, general and administrative costs and for profit; or
 - (bb) the highest comparable price of the like product when exported to an appropriate third or surrogate country, as long as that price is representative;

 - (d) “public body” includes a person or body that acts on behalf of the government of, or another public body within, a country.

- (3) The Commission must, in determining the margin of dumping of goods, make reasonable allowance for differences in conditions and terms of sale, differences in taxation and other differences affecting price comparability.
- (4) If the Commission, when evaluating an application concerning dumping, concludes that the normal value of the goods in question is, as a result of government intervention or a particular market situation in the exporting country or country of origin, not determined according to free market principles, the Commission may apply to those goods a normal value of the goods, established in respect of a third or surrogate country.
- (5) The Commission must, despite the definition of “export price” set out in subsection (2), when evaluating an application concerning dumping that meets the criteria set out in subsection (6), determine the export price for the goods in question on the basis of the price at which the imported goods are first resold to an independent buyer, if applicable, or on any reasonable basis.
- (6) Subsection (5) applies to any investigation of dumping if, in respect of the goods concerned-
- (a) there is no export price as contemplated in the definition of dumping;
 - (b) there appears to be an association or compensatory arrangement in respect of the export price between the exporter or foreign manufacturer concerned and the importer or the third party concerned; or
 - (c) the export price actually paid or payable is unreliable for any other reason.

 - (b) either –
 - (i) a written abstract of the information in a non-confidential form; or
 - (ii) a sworn statement setting out the reasons why it is impossible to comply with subparagraph (i).

 - (i) a written abstract; or

 - (b) in the case of other information, determine whether the information should be recognised as confidential.
- (2) If, upon considering a claim in terms of subsection (1)(a), the Commission determines that the information is not, by nature, confidential –

BOARD NOTICE 889 OF 2026

BOARD NOTICE

FEES PAYABLE TO THE IRBA WITH EFFECT FROM 1 APRIL 2026 TO 31 MARCH 2027

In Board Notice 851 of 2025 (“Board Notice”) the Independent Regulatory Board for Auditors (IRBA) informed the public and Registered Auditors (“RAs”) of its intention to prescribe fees payable by RAs for the 2026-2027 financial year in accordance with Section 8 of the Auditing Profession Act, 2005 (Act 26 of 2005) and invited public comments on the proposed fees.

The Board considered the comments received, including concerns raised regarding the proposed increases being above the prevailing Consumer Price Index (CPI) and all revenue streams available to it to achieve a break-even budget as required by Section 53(3) of the Public Finance Management Act (PFMA). The Board thus concluded that CPI aligned increases across all fees would expose the Board to a budgeted deficit to contend with and render it unable to deliver on its regulatory mandate.

Accordingly, the Board resolved to reduce the initially proposed increase of 5% for annual renewal fees payable by individuals to 3%, with all other proposed fees remaining unchanged from the Board Notice.

The fees payable from 01 April 2026 to 31 March 2027 are prescribed herewith as approved by the Board:
